

**Table 2. Interprofessional Mission Trip Evaluation of Accreditation Outcomes**

Statements Assessed from Post-Trip IPE Student Survey	Corresponding ACPE Guidelines/CAPE Outcomes
1. This trip allowed me to participate with interprofessional healthcare team members by direct patient care to promote the health of all patients.	CAPE Outcome 2.3.3 ACPE Standards 3.4, 11.3
2. I learned how to assess the healthcare status and needs of a targeted patient population.	CAPE Outcome 2.4.1
3. I was able to participate in population health management by evaluating and adjusting interventions to maximize health.	CAPE Outcome 2.4.3
4. I gained the ability to coordinate education efforts with other healthcare providers, when appropriate, to ensure a consistent, comprehensive, and team-based encounter.	CAPE Outcome 3.2.3 ACPE Standard 3.4
5. This trip established a climate of shared values and mutual respect of all team members.	CAPE Outcome 3.4.1 ACPE Standard 11.1
6. This trip utilized clear roles and responsibilities of team members to optimize patient care outcomes.	CAPE Outcome 3.4.2 ACPE Standard 3.4
7. Communication on this trip demonstrated value and respect for various areas of expertise.	CAPE Outcome 3.4.3
8. I am better able to recognize collective identity and norms of a different culture without overgeneralizing.	CAPE Outcome 3.5.1 ACPE Standard 3.5
9. I am able to demonstrate an attitude that is respectful of different cultures after completing this trip.	CAPE Outcome 3.5.2
10. I learned how to modify communication strategies to meet patient and caregiver needs.	CAPE Outcome 3.5.3 ACPE Standard 3.6
11. I am now able to incorporate cultural beliefs and practices into health and wellness care plans.	CAPE Outcome 3.5.4 ACPE Standard 2.3
12. I am now able to actively listen and ask appropriate open and closed-ended questions to gather information.	CAPE Outcome 3.6.2
13. I am better able to demonstrate empathy when interacting with others.	CAPE Outcome 3.6.6
14. I am now able to develop professional documents pertinent to organizational needs.	CAPE Outcome 3.6.8
15. I learned from other members of the interprofessional healthcare team and better understand the abilities, competencies, and scope of practice for nursing, pharmacy, and physical therapy.	ACPE Standard 11.2
16. I now have the ability to encourage others and facilitate learning in an interdisciplinary team.	ACPE Standard 11.2
17. I would attend another interprofessional mission trip in a similar nature.	ACPE Standard 11.3
